HENRI

L'eau No.12

L'EAU No.12 is distinguished by its hand-formed columnar body and sculptural base that lends a refined, elegant touch. Designed to gently diffuse and direct light upward, it emanates a soft, ambient glow. Each lamp is made to order and entirely unique.

The evolving Chapter of L'EAU merges the sinuous flowing lines of late 19th-century Art Nouveau with the bold spirit of Art Deco. It combines soft femininity with strong shapes in a new juxtaposition. It stands as a testament to the act of creation that channels historical inspiration with forward optimism.
