## *Francis No. 4*

The Francis Collection embodies the subtle yet exquisite, drawing upon the simplicity of Jean-Michel Frank's parchment partition and the artistry of Eileen Gray's hand-lacquered folding screens. This collection resonates with the broader Modernist movement, gently intertwining influences from Japonisme and Orientalism. Each piece is meticulously crafted to evoke a sense of parred back elegance, an heirloom in the making. The rich tones of cream and tobacco brown glass lend depth to the delicate forms, creating a nuanced interplay of light and volume. With its timeless design, the Francis Collection speaks to connoisseurs of things quiet and beautiful.
